## Apprenticeship Math 12

## ASSIGNMENT: Perspective Drawings

Name: $\qquad$
Date: $\qquad$

1. Draw three perspective drawings of a rectangular prism. The front face, horizon line, and vanishing point ( V ) are given for each.

2. Draw a perspective drawing of a prism with the front face, horizon line, and vanishing point (V) given.

3. Draw a perspective drawing of a prism with the front face, horizon line, and vanishing point $(\mathrm{V})$ given.

4. Draw two different perspective drawings of a prism with the front face given. Do not erase your vanishing points.

5. Create a perspective drawing of a four legged table for which the front view is given below.
